

CHELSTIE & KEVIN

Dear Expectant Parent

Our names are Kevin and Chelsie. We would like to begin by thanking you for taking your time to get to know our family. Choosing adoption for your baby is a courageous and selfless decision and we would be honored to be considered as a family for your child.

If you are choosing open adoption, we look forward to making you and your family part of our lives. With our profile, it is our hope that we can provide you a picture of what life with our family would be like for your baby.

about US

Kevin is 34 years old and Chelsie is 31. Growing up, we lived in the same small town surrounded by family and friends. We starting hanging out the summer of 2004; Kevin had just graduated from NCK Technical College and Chelsie was still in high school. We dated for seven years while Chelsie finished high school and attended KSU. We then got married in June 2011.

Soon after getting married we tried to expand our family; however, after many doctor appointments, we found out that we are unable to conceive a child. The summer of 2017 we were blessed with our first child through adoption. We are excited about our family growing and look forward to all the activities, fun and responsibility that comes with raising children.

MEET OUR DAUGHTER *Kwinlee*

June 2017 we were blessed through adoption with our daughter Kwinlee. Kwinlee is a sweet, ornery, energetic little girl. She loves baby dolls, cooking in her kitchen and playing outside. She will be a wonderful big sister!

WE ARE EXCITED ABOUT WELCOMING A CHILD INTO OUR FAMILY!

WE LOVE FAMILY ADVENTURES!

about our WORK

CHELSIE'S CAREER

I am very proud to work for our local elementary school as a speech-language pathologist. I provide individual and group therapy to children ages 3-10. I absolutely LOVE my job! Plus, I get holidays and summers off!

KEVIN'S CAREER

At 20 years old I was a journeyman electrician working in a nearby town for a mid-sized commercial contractor. At 26 years old I received my master electrician license and now work for a local mechanical contractor.

about CHELSIE (BY KEVIN)

In our relationship, Chelsie is the calm and collected one. She makes me a better person and will always be my best friend. Chelsie takes pride in making our house a home. She is always doing the laundry, cleaning the house, cooking me delicious meals and never skips a beat when it come to helping me in the yard.

Chelsie's passionate and loving characteristics show in her career as a speech-language pathologist. She is the most kind, considerate and loving individual I know and a person could not ask for a better life partner.

about KEVIN (BY CHELSIE)

Kevin is goofy, hard working and very talented. There is rarely a day that he doesn't come home and I don't know he is there. He often shuts the door and yells something along the lines of "HOOONEEEY I'M HOOOME" and then finds me, picks me up, swings me around and gives me an ornery, obnoxious sloppy kiss.

You will almost always find Kevin outside. He may be doing fixer up projects, hunting, working in the garage or helping harvest. I love watching him interact with our daughter. He is a great dad!

THE PEOPLE WE love

Family is very important to us. Most of our family lives in the same town as us. *Our families get together regularly just to hang out, or celebrate special occasions or holidays.* We have very fond memories growing up with our large families. Kevin has two brothers and one sister who all live in the same town as us. Chelsie has one brother who recently got married and are now expecting their first child. They also live in the same town as us so we see each other often.

Our parents can not wait to be grandma and grandpa again!

our decision to ADOPT

Not long after getting married we decided to start a family. We always knew we wanted at least two kids and couldn't wait to share a life with little ones. We were patient for a while but after a year of trying, we knew we needed to seek medical help. An IVF embryo transfer ended in a miscarriage and although this was difficult, it brought us even closer together as a couple in a very emotional and spiritual way.

After many discussions and lots of prayer, we are very excited to add to our family through adoption. We will always encourage our children to enjoy being a child by being outdoors, finger painting, making messes in the kitchen and running around the house laughing.

WELCOME TO OUR HOME!

our HOME & COMMUNITY

Our home is our pride and joy. We live 2.5 miles from our hometown. We have four bedrooms, three baths and a large open concept living room, kitchen and dining room. We have an area for a game room upstairs and a large family room downstairs. *We have 3 acres and a pond near by. We have plenty of room for animals, 4 wheelin' and just running around playing.* Sometimes we walk around the yard and imagine where we will put the swing set and sandbox. We can't wait to spend time outside running and playing with our children.

in CLOSING

Again, thank you so much for giving us the opportunity to introduce our family to you. *We hope that you are able to find the support and love as you make this important decision, one that we know will not be easy.*

If your heart leads you in our direction, we want you to know that we will surround your child with love, laughter and happiness.

Throughout this journey together, our thoughts and prayers are with you; wishing for a healthy and safe pregnancy.
