

JOSH & KAYCE

Hello!

We are Josh and Kayce from Hays, Kansas. Our family includes our two very playful, lovable dogs, Remi and Koda. We like to think of ourselves as fun, caring, intelligent, responsible, and funny people. Unless our friends and family have been lying to us, we shouldn't be too far off! We are by no means perfect, but we work hard and care big.

While we currently have no children of our own, we have been foster parents to several children in need of a safe home. We have spent many years struggling with infertility. Adoption and foster-to-adoption are our path to growing our family. We know that we can provide children with a loving, fulfilling life. We also believe that open adoption should be a possibility with your child, as every child deserves to know where they come from.

about US

We met at the lake in 2013. We immediately shared a close bond over our shared values for family and friends and a mutual love for the outdoors. We married in the fall of 2016. Shortly after, we purchased our beautiful country home. *Our home is rich with love and joy, and we are so excited to fill it with tiny giggles and the pitter-patter of little feet.*

As corny as it sounds, the whirlwind we have been on through our journey to have a family has brought us even closer as a couple and given us the deepest admiration for families. We have learned the power of the unconditional love and support that surrounds us. Our sarcastic humor and “better together” attitude makes our marriage stronger than ever. Our love for the outdoors and traveling keeps us moving forward and seeking new adventures, waiting for our best adventure yet.

Josh is self-employed and runs his family’s long-time real estate rental company. He takes on the roles of contractor, landlord, maintenance man, and more. Kayce is a Dental Assistant. She enjoys her exciting career and loves interacting with people every day, especially the little kiddos.

WHAT WE LOVE TO DO *for fun!*

WE LOVE BEING ADVENTUROUS.

We enjoy traveling and exploring new places. *We like to get away at our family cabin in Colorado* or spend a long weekend camping at the lake. *We enjoy spending time with our nieces and nephew*, exploring and showing them our world. *Our family farm is where we spend a great deal of time* to fish, ride ATV’s or horses, visit the farm animals, play with our dogs, take walks together, and enjoy nature.

Family and friends are very important to us. We have loved getting to share our favorite things, our families, and our values with our foster children. We cannot wait to share our life with our children someday!

meant TO BE

Some things in life are by choice, some things are by fate, and some things are just meant to be. We believe that we were meant to be parents. When we spend time with children, our hearts feel full. Our life feels complete.

We have a desire to raise children, to teach them, and to help them grow and bloom into the best person that they can be. We want nothing more than to be able to share our life, values, traditions, and families with children of our own.

We promise to provide our child with a home and family that shows them what it means to be loved, wanted, and cherished forever.

KAYCE through Josh's eyes

I was immediately drawn to Kayce when I saw her. It didn’t take much time of knowing her and seeing her personality before I knew she was the one for me. She is very smart, charismatic, and strong-willed. *She may seem quiet at first, but her sweet demeanor makes her easy to talk to.*

Family is the most important thing to her. She has the biggest heart and a soft spot for animals and kids. *When I watch her interact with children, especially our nieces and nephew, it’s obvious that she is meant to be a mom.*

JOSH through Kayce's eyes

From the moment I met him, Josh’s attitude caught my attention. *He has always been carefree and optimistic, even through our struggles with infertility. Paired with his amazing sense of humor and sarcasm, a person can’t help but enjoy being around him.* Josh is hard-working, strong, and smart.

While his strength is very apparent, **on the inside is his huge heart and deep love for everyone in his life.** Watching him be an uncle is amazing, but *seeing him be a dad with his love for the foster children in our home is nothing short of heartwarming.*

ONE BIG, HAPPY *family*

Josh comes from a small family. His sister is married with two children. Kayce has one older brother who is married with three little girls, and two younger brothers. Both of our parents and their families each grew up in Hays or the surrounding rural communities, and we all still live in the area. **Josh's father was adopted, and he has shown us how adoption is a very special way to create family filled with unconditional love and support.**

Our biggest values have always been family and friends. *We have many friends that fit in to our life like family and spend time with us as such.* Backyard barbeques or a weekend get-together will bring together the whole crew.

ENJOYING OUR FRONT PORCH

home SWEET *home*

We live in a beautiful, two-story home located 3 miles outside of Hays, Kansas. *Our home sits on 3 acres surrounded by trees, pasture-land, and wheat fields.* **Our favorite thing about our home is its location.** We are close enough to town to enjoy the small-town festivities and parades, but just far enough away to enjoy the quiet of the countryside.

We love sitting on our porch, listening to the crickets on a cool, autumn night. *Gardening, making endless giggles from the backyard swings, playing fetch with our dogs, and roasting marshmallows around a campfire are some of our favorite backyard activities.*

final THOUGHTS

We continue to pray for the day that we will have a family, and we have faith that this path will bring our prayers to life. This decision is important for you to choose the best parents to raise your child, and we believe that we are the parents to help you. **We are very honored and grateful that you are taking the time to consider us.** We send you prayers and blessings along your journey.
