

NEEL & ROSE

Hello!

WE WOULD LIKE TO THANK YOU FOR TAKING THE TIME TO GET TO KNOW OUR FAMILY. We admire your courage to do such a selfless act of love for your baby, and we are honored that you would consider us as potential adoptive parents. No matter what, we hope you find peace in your decision.

Being parents was something that we greatly desired. After a two-year battle with infertility we started the adoption journey in 2017 which led us to adopting our daughter Isabella. We are certain that adoption was the way we were meant to create our family and have no doubt that we are meant to adopt again. We know we have more than enough love in our hearts for a second child, and that Isabella would be a great big sister.

about US

Neel is a whiz with numbers and works for a Health Care Supplies Company in their marketing department. Rose is passionate about teaching and spent 14 years teaching in special education before becoming a stay-at-home mom. Since marrying in our 30's we knew we wouldn't wait long to start our family. After two-years of trying, our journey lead us to adoption which has become the BEST decision of our lives!

The addition of our daughter Isabella has brought us more joy than we could hope for. From the moment we held her in our arms we fell completely in love with her, and we are excited to fall in love again with another child as our family grows.

our FAITH

We attend a non-denominational church weekly and Isabella partakes in the children's ministry. She enjoys the songs, crafts, and puppets that teach her about God. We volunteer in multiple capacities, but our Usher team has become an important group. They pray with us and when we adopted previously, they bought us enough diapers to last about nine months!

WHAT WE LOVE TO DO for fun!

The most important thing about life with us is FINDING JOY in all that life has to offer.

We love the outdoors, sports, and traveling. In any given weekend you might find us in the north GA mountains hiking or in the City for a sporting event.

We also like to make trips to the local parks to play/picnic, the zoo to check out the animals, or Aquarium just to see Isabella's fishy face impression (heart melt).

We also take any opportunity to travel near or far to experience the world.

Life with us will be full of LOVE, ADVENTURE, and FUN!

Isabella is an energetic, adventurous two-year-old! She loves to be outside playing. She is very social with others she is familiar with and has made many friends her age, so lots of play dates! She loves music, playing with her baby dolls, and painting. She participates in Mommy and Me music class and swim. She is Daddy's little girl, and Mommy's World!

a little about ROSE

For the past 2 years I've been a stay-at-home mom, and am literally living my dream life! Spending my days with Isabella doing play dates, music class, swim class, and being part of a Mom's fitness group has been the best. I get to see every milestone and wouldn't want it any other way.

a little about NEEL

I've been working for a Health Care Company for the past 13 years. I enjoy it because it allows me to use my talent in Math. I am grateful to be a strong leader and provider for my family. The most important job I have though is being a dad, and Isabella definitely has me wrapped around her little pinky. My favorite is how she runs to greet me each evening when I get home yelling "DaDa" followed by a big hug.

Random Facts about Me:

- I'm originally from India
- I'm a naturalized US Citizen
- I'm an only child

THIS IS OUR *village*

Our family lives spread out through Florida, Texas and Chicago but we get to visit with them 2-3 times a year. We have two nephews, one niece, and many cousins; two whom have also adopted their spouse's children from a previous relationship.

Our friends that have become our "Georgia Family" mean so much to us. We are really close with them, referring to each other as Aunts & Uncles, while spending holidays and weekends together. We have developed traditions of super bowl parties, Easter picnics, Friendsgiving, and FriendsMas we do every year.

Everyone in our village is supportive and excited for us to adopt again! We LOVE our village and can't wait to bring another child into such a loving, supportive family.

home SWEET *home*

We live in a suburb of the city, and we love our location because we can easily have access to the city or head north to the mountains. *Our neighborhood is full of children and others seek to live here for the high rated schools.* We have two great parks just minutes from our house with playgrounds, various fields/courts, and a walking/biking path.

Our church is nearby and their kid's program is one of the best in the area. We have access to water parks, sporting events, multiple museums, and various outdoor activities. We moved here after feeling like this was one of the best areas to raise a child.

final THOUGHTS

Thank you again for considering us. We hope our story has given you a glimpse of who we are and how much we look forward to having another child to love and cherish. *Your child will grow up knowing their adoption story and what a sacrifice you made out of love.* Our thoughts and prayers are with you as you make this important decision for your child.
